

CLARK COUNTY SCHOOL DISTRICT POLICY

P-5146

STUDENT CONDUCT

The Clark County School District recognizes that effective character education is fundamental to positive student conduct. The District believes that the values and beliefs within a community are essential to prepare students for the challenges of today's world. Respect, integrity, responsibility, empathy, courage, manners, and justice are all fundamental character traits that students should be encouraged to demonstrate daily while at school and in their lives.

District staff, at all levels, are role models for students and as such should conduct themselves in accordance with these character traits.
