3 ways to
report

Why SafeVoice?

Your voice can be the difference.

- What happens around here and in your life that would be helpful to be able to report?

In the vast majority of shootings at schools, someone knew the shooter was involved with guns, but didn't tell an adult

When to Use SafeVoice

To support yourself, or your friends when they are facing

- Bullying at school or online
- Suicidal thoughts or self-harm
- Sexual harassment
- Substance abuse

OR, if you are aware of violence or weapons at your school

Speaking up vs. Gossiping

Speaking up

Keeping school safe

Someone could be harmed or even lose their life

Problem is urgent and important

An adult can help solve the problem

Gossiping

The gossip does it for recognition and status

Feelings are hurt

Avoiding blame

Problem is passed on, not solved

SafeVoice is for students who need help

- So RESPECT it, don't abuse it!
Reporters who use SafeVoice to prank or harass void their anonymity.
- SafeVoice uses P3 technology that scrubs phone number and IP address, making the report anonymous. If you CHOOSE to share your name, it helps responders solve the problem.

Reports are received live 24/7/365 by SafeVoice Comm Center

Who responds to SafeVoice Reports?

- Law enforcement is engaged immediately for life safety situations
- A team here at your school of administrators, counselors, and social workers receives the reports and will start taking action to intervene and support
- The report and the reporter are kept confidential. You may not hear directly about the response, but you can feel better knowing you stood up for a friend
