

## CLARK COUNTY SCHOOL DISTRICT POLICY

P-6120

### MULTI-TIERED SYSTEM OF SUPPORTS

- I. The Clark County School District requires that all schools, in collaboration with stakeholders, implement the districtwide framework for a Multi-Tiered System of Supports (MTSS) to ensure all students receive equitable access to opportunities to promote each student's academic achievement, social-emotional growth, and behavioral development.
- II. MTSS is a framework that uses a collaborative, data-informed problem-solving process to ensure continuous school improvement by matching multiple tiers of instruction and intervention to meet the needs of every student. MTSS is grounded in high-quality, standards-based instruction that integrates academic, social-emotional, and behavioral learning.
