

Nevada State GEAR UP Provides Scholarships for Career and Technical Education Students

As Career and Technical Education 12th graders make plans to continue their education, it is important to investigate the many sources of financial aid available to them. Magnet and comprehensive high school students who attended 8th grade at the following middle schools—Cashman, Martin, Orr, Smith, Von Tobel, and West—can access Nevada State GEAR UP grant funds to pursue further education at any Nevada System of Higher Education campus.

There are GPA and other requirements; however, grant funds do not have to be repaid. Students who attended these schools should contact their high school guidance counselor or call the Nevada State GEAR UP facilitator at 799-6830 for additional information. You can also access the Nevada State GEAR UP website at <http://www.doe.nv.gov/gearup.html> for more detailed information.
