CCSD leadership continues to work around the clock to monitor the latest information regarding the coronavirus (COVID-19).

We are aware of the second presumptive case in Clark County. According to our information, this case is not related to CCSD. We will continue to work with the Southern Nevada Health District (SNHD) to keep all our parents, employees, students, and the community up-to-date with the latest information.

We understand the uncertainty around this evolving situation and the changing response is frustrating for many of us. We will continue to send updates via email and ParentLink. Additionally, information on any new developments will be posted on our website, CCSD.net.

We have also developed a question and answer document by clicking here or visit CCSD.net to view. We will update that document on an ongoing basis as we hear from our school communities. Please understand we are not always able to provide the answers to every question due to federal privacy laws regulating patient and student rights, as well as the protection of emergency response information.
