If any of these areas are not identical, it is not considered a tie-Response, and the District will then make award to the Respondent with the best Response.

The procedure for tie-Responses is to hold a public drawing and award the entire RFP to the winner of the draw. When a drawing is necessary, a Purchasing Administrator will contact the Respondents involved and describe the reason for the drawing. The Purchasing Administrator will indicate the time and place of the drawing and invite the Respondents to attend, but specify that attendance is not mandatory for the drawing. The Purchasing Administrator will ensure that an impartial witness will be present at the drawing.

Any product tested and found not capable of meeting the requirements of the RFP specifications will not be considered for award. At the conclusion of the testing the Respondent may retrieve the product(s) (if practical). The District is not responsible for any damages that may occur to any products supplied for testing.

OR

If the RFP specifies Reconditioned Product: A reconditioned product is defined as a product that, although it may contain some used components, has been completely disassembled and reassembled including all cleaning, adjustment, and replacement of components necessary to make the product capable of having exactly the same guarantee as a new product. The reconditioned product must be certified by the Supplier's standard maintenance contract at rates that are no higher than the rates for a new product.

New products are to be offered unless the RFP specifically calls out for reconditioned product.
