Clark County School District
4212 Eucalyptus Ave
Las Vegas, NV 89121

Re: Approval of Clark County School District Technology Plan

Dear Ms. Ebert:

Your Clark County School District Technology Plan has been reviewed and approved. This technology plan is valid from July 1, 2010 through June 30, 2013. Clark County School District will be included on a list of approved technology plans, which will be available to the Schools and Libraries Corporation (e-Rate) and the U.S. Department of Education.

Technology Plan Approval for schools and Libraries Universal Service Program

The Nevada Department of Education is certified by the Schools and Libraries Division of USAC to approve technology plans for participation in the Schools and Libraries Universal Service Program.

Clark County School District has a technology plan that has met the standards and criteria outlined in the following checklist.

CHECKLIST

Successful technology plans align the overall education or library service improvement objectives with the following five criteria. To qualify as an approved Technology Plan for Universal Service Program discount, the plan must meet these criteria. It is critical that technology planning not be viewed or treated as a separate exercise dealing primarily with hardware and telecommunications infrastructure. There must be connections between the proposed physical infrastructure of the information technology and the plan for professional development, curriculum reform, and library service improvements.

- X The plan establishes clear goals and a realistic strategy for using telecommunications and information technology to improve education or library services.
- X The plan has a professional development strategy to ensure that staff knows how to use the new technologies to improve education or library services.
- X The plan includes an assessment of the telecommunication services, hardware, software, and other services that will be needed to improve education or library services.
- X The plan provides for a sufficient budget to acquire and maintain the hardware, software, professional development, and other services that will be needed to implement the strategy for improved education or library services.
- X The plan includes an evaluation process that enables the school or library to monitor progress toward the specified goals and make mid-course corrections in response to new developments and opportunities as they arise.
